So, recently something weird has been happening to me at school. There's this girl who every time she sees me in the corridor tries to pinch or slap my bum. She's a popular girl and whenever she does it my mates cheer and laugh. Most of them think she's doing it because she fancies me. But we never speak and the rest of the time she doesn't even seem to notice I exist. It makes me feel uncomfortable and self-conscious. And I hate that everyone else just thinks it's funny. I tried to tell one of my friends it creeped me out but he just told me to man up and said I should enjoy it. Am I over-reacting? What should I do?

Thanks.

### Who do I believe?

There's a boy in my class I really like, and we've been flirting for a while now. He tells me all the time that he thinks I'm fit and in the lunch hall he wants me to sit on his lap. We make out sometimes but we're not officially boyfriend and girlfriend. He hangs out with quite a big group and all the girls he's friends with have started saying I'm easy and that he's only interested in me because everyone knows I'm a slag. I feel like they're always giving me nasty looks and giggling behind my back. When I tried to talk to him about it, he laughed it off and said they were jealous. I really like him, but I don't know who to believe?

In need of advice. Thanks.

The screenshot shows a social media interface with a green header titled "The Problem Pages". The main content is a post by a user named "Kitty", who joined in 2021. Her profile picture shows a young woman with curly hair. The post text reads: "Should I be offended? The boys at my school are always making comments about my breasts. I was one of the first to get my periods and my boobs are already way bigger than anyone else's. When I walk around in school, I feel like the boys are literally staring at my chest and often wolf whistle when I go past. My name is Kitty and sometimes I'm sure they are deliberately saying Titty instead. I've always liked my body and sometimes it feels great to be noticed, but other days I wish people would just leave me alone. My friend was shocked when she heard what they were saying and told me I should be really annoyed. How am I meant to feel about this?". Below the text are icons for 427 likes and 62 comments. To the right of the post are two promotional images: one for "Report Remove" with the text "WANT TO REMOVE A NUDE IMAGE OF YOU ONLINE?" and another for "Get Away From It All" with the text "NEED A PLACE TO GET AWAY FROM IT ALL".

### What do I do now?

I started dating another boy in my school, it was going okay but I stopped going out with him because I felt a bit unsure about how he spoke to me sometimes, it made me feel a bit worried. Since we broke up, he's been winking at me in the corridor and making suggestive comments online. I'm worried he's going to tell someone, or that if I tell someone about what he's doing, then everyone will find out I'm gay and this isn't how I want them to find out. I'm just not ready to talk about it yet. I spoke to one friend who knows, and they offered to report it to the teachers for me, but I'm still worried.

Not sure what to do.

I recently got a job in a local shop. The interview was a bit weird because I thought the man who interviewed me was flirting, but I was really pleased I got the job, so I decided to just ignore it. He's now my supervisor and makes me feel really uncomfortable when we're in the shop together - he is always staring at me and he makes jokes about me being attractive. This week he said he'd made sure we were working together on all next month's shifts so we can get to know each other better, then winked at me!

Hoping for an out.
